

ImagineDesign Donates Web Site for Ronald McDonald House Fundraiser

Manassas, VA - January 20, 2011 - 2011 is an exciting time for the Ronald McDonald House Charities of Greater Washington DC. It marks 31 years of service in the DC region, their 14th anniversary in hosting a charity walking event and their inaugural year in hosting the Red Shoe 5K Run/Walk Fundraiser.

ImagineDesign, a Manassas, Virginia-based creative firm, donated their time to support the development and launch of the web site to promote the Red Shoe 5K fundraiser, located at <http://www.redshoe.org>.

"Any time we have a chance to help make things better in our community, you can count on finding us in the middle of it," said ImagineDesign's founder, Patrick King. "[Ronald McDonald House Charities of Greater Washington DC] works so hard for children and their families in this area it's infectious. You just can't help but want to be involved."

The Red Shoe 5K takes place on March 27, 9:00am at Dulles Station near the intersection of the Dulles Toll Road and Route 28 in Chantilly, VA. This family friendly event will include a fast, flat and scenic 5K course, with top finishing racing enthusiasts awarded cash prizes.
